

Dear hiring Team!

I am excited to apply for the position of Sr. Supplier Quality Engineer, Fasteners and Sealants. With my extensive experience in the automotive industry—both as an OEM and a supplier—and my strong commitment to delivering exceptional results, I am confident that I will be a valuable asset to your company.

I have extensive experience in the automotive industry, having worked as a New Project Engineer for two years, New Project Team Leader Engineer for three years, and Senior Supervisor for 1.5 years. During this time, I have gained two years of international experience and have successfully launched 52 New Projects (including full, middle, and minor changes) from virtual lots throughout SOP.

In my previous roles, I was responsible for equipment and facilities allocation, job allocation for new operations, and improving the BOM confirmation process and Engineering Change Control at Nissan. I also deployed global improvements for Quality Assurance processes, which helped to streamline operations and improve efficiency.

As a Senior Supervisor for new projects, I managed a team of eight engineers, as well as one shift of 82 persons (with five direct reports). I have also worked as a Tester Engineer for Idiada at Mercedes Benz, where I performed customer and engineering inspections, as well as Durability testing. In addition, I have participated in ISO audits, ensuring that processes meet international quality standards.

I have 4 years of international experience working in USA for Hyundai Mobis and Lucid Motors as contractor, Martinrea Rollstar is my current employer as Quality Liaison Engineer for Arizona and Mexico.

I am confident that my experience, quality mindset, and willingness to learn will make me an important asset to your team. I am eager to share my expertise and collaborate with your team to improve processes and achieve even greater success.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Sincerely,

M.E. Luis Adrián Salazar Lozano.
